

Market, Regulatory & Technology Insights

Intelligence. Oversight.

Energy policy experts on call for you.

Edison Energy monitors, evaluates, explains and makes recommendations on market, policy and technology trends. We can also advocate on regulatory and legislative affairs on your behalf—ensuring policy compliance, reduced price risk and eligibility for renewable credits.

FEATURES

Visibility and alerts: Get insights about smart investments and early warning when incentives might change in a region. We closely monitor your assets and ensure that you have a clear, minute-to-minute view on the market and regulatory situation.

Market analytics: The energy market is volatile and dynamic. We use technology and sophisticated marketplace analytics that monitor up to 120 criteria to ensure timely understanding of capabilities and pricing of potential technologies and suppliers.

Regulatory, policy and incentive guidance: A key part of your distributed energy resources strategy is to procure or build assets in the location with the best financial incentives. We have expertise in all energy technologies, pricing dynamics, regulation and incentives to ensure the best financial results.

Reduced risk: We help reduce your financial uncertainty by providing information on current and proposed rates or other incentives that may impact the long-term financial arrangements of your Power Purchase Agreement (PPA) or assets.

BENEFITS

Compliance: You can be sure you'll understand all sides of existing and pending regulation so that you don't let a deal fall through due to lack of compliance or end up on the wrong side of public opinion on an issue.

Confidence: With a knowledgeable partner on your side, you can confidently go to your executives or Board with the best available recommendations—because you have a 360-degree view of the regulatory, technology and market environments.

Achieving energy and sustainability goals: Information is power—get the insight and analysis you need to realize potential energy savings and meet your company's sustainability goals.

WHAT MAKES US DIFFERENT?

Deep expertise: Our team is made up of seasoned professionals with years of energy industry experience, giving us perspective and depth of knowledge that is unrivaled in the business.

Comprehensive: Our thorough knowledge of both federal and state regulations across the nation, plus experience with the full range of energy technologies, give us the unique ability to understand supply and demand and what projects make sense for your business, in which geographies, over time.

Pioneering: Inspired by our 130-year history, we hold expertise in both traditional and cutting-edge energy technology.

Market, Regulatory & Technology Insights is just one of the many solutions Edison Energy offers to benefit your organization. Contact us today at information@EdisonEnergy.com

Edison Energy is an independent energy advisory and solutions integration company with the capabilities to develop and implement a broad portfolio of energy services for commercial, industrial and institutional organizations. We help customers reduce their energy costs, improve the environmental performance of their operations, ensure energy resiliency and manage exposure to energy price risk.

CASE STUDY // INSTITUTIONAL

Taking a contract dispute all the way

SCOPE

- › As part of a long-term regulatory monitoring contract with a customer, we identified that a utility was planning to terminate selected special contracts early
- › We disputed the termination on our client's behalf
- › We organized a new coalition of industrial customers and legal counsel to file a complaint with the Public Utility Commission (PUC)
- › After many months, the PUC denied the claim
- › We took the case to the State Supreme Court

RESULTS

The case was won at the State Supreme Court level

CUSTOMER VALUE

Our customer saved more than \$1 million
